5907504556826

Discover a new dimension of protection and functionality with the Etteri Matt Mag Ring Case. This unique accessory combines elegant design with advanced technology, providing comprehensive protection and additional capabilities for your smartphone. Made from two types of materials: soft TPU and hard PC. The 2.5 mm thickness is the perfect compromise between slimness and protection. Raised edges provide extra protection for the screen against damage. A subtle embossed logo is placed on the side of the case, adding a stylish and minimalist character to the overall look. The innovative design of the Etteri Matt Mag Ring Case ensures a perfect fit for your phone. The soft TPU edges absorb shocks, while the hard PC back protects against scratches. The matte finish not only adds elegance but also increases resistance to fingerprints. The metal holder with built-in magnets with a strength of 2700 GS serves as a convenient stand for watching movies or making video calls, as well as providing a secure grip when using the phone. The gear mechanism provides a subtle, pleasant sound that accompanies every movement. The Etteri Matt Mag Ring Case is fully compatible with MagSafe technology and wireless charging, meaning you don't have to give up the convenience of wireless charging. Precise cutouts, including for buttons and straps, ensure full functionality of the device. Packed in minimalist, eco-friendly packaging, it is an excellent choice for conscious consumers.
