

Setty power bank 10000 mAh with cables PB-WK-101 black

GSM171209
5900495084705

Power bank by Setty with a capacity of 10000 mAh, equipped with a USB output and two inputs - one micro USB type and the other USB-C. The device also has 3 built-in cables: USB-A (input), USB-C (output) and Lightning (output). This capacity is enough to charge most phones on the market several times. The LCD display will inform us about the level of battery charge, and the small size allows us to carry it with us at all times. It is one of the indispensable accessories that will come in handy when traveling, at school or on a camping trip. The device also has a built-in LED flashlight.
